

Issued: 25 August 2022

**FAQs**  
**SAFE MANAGEMENT MEASURES**  
**FOR ACTIVESG FACILITIES & PROGRAMMES**

**Note:** The SMMs in this document pertain only to ActiveSG Facilities & Programmes and take reference from Sport Singapore’s advisory. For general FAQs on sport SMMs, please refer to <https://www.sportsingapore.gov.sg/COVID19/Safe-Management-Measures>

or scan this QR code:

**Qn: Based on the latest SMMs, what are the changes to ActiveSG facilities and programmes, as well as DUS facilities?**

**Ans:** From 29 August,

- **Mask wearing** at our indoor facilities / programmes including DUS facilities will be optional. Nevertheless, members of the public are encouraged to continue to exercise responsibility and caution, by wearing masks to protect themselves and others especially when visiting crowded places or interacting with vulnerable persons.
- **Vaccination-Differentiated SMMs (VDS)** is no longer required for indoor sports facilities. As such, we will not be implementing checks on vaccination status at our facilities.
  - However, sporting events held at our facilities that involve more than 500 participants at any one time will continue to be subjected to VDS. Participants’ vaccination status will be checked before they enter the event venue.
  - VDS Exemptions. Individuals who have recovered from a COVID-19 infection<sup>1</sup>, medically ineligible for COVID-19 vaccination and unvaccinated children aged 12 and below are exempted from VDS and can participate in VDS activities similar to fully vaccinated<sup>2</sup> individuals.

<sup>1</sup> Persons who have completed their vaccination regime and recovered from COVID-19, as well as persons who are unvaccinated or have incomplete vaccination status, and recovered from COVID-19 within 180 days will not be managed similarly to a fully vaccinated individual. From 1 June 2022, these recovered persons will need to receive the booster dose within 9 months of their last primary vaccination dose in order to maintain their vaccinated status. Individuals may check whether they are considered “fully vaccinated” at <https://go.gov.sg/vax-status-query>

<sup>2</sup> An individual is considered vaccinated if he/she a) has been fully vaccinated, i.e. received the appropriate regimen of World Health Organisation Emergency Use Listing (WHO EUL) vaccines including their respective duration post-vaccination for the vaccine to be fully effective and boosters for eligible individuals, and b) had their vaccination records ingested in the National Immunisation Registry. Persons who have completed their vaccination regime and recovered from COVID-19 as well as persons who are unvaccinated or have incomplete vaccination status and recovered from COVID-19 within 180 days from the day of the first positive PCR/healthcare-administered ART result, may also be managed similarly to a fully vaccinated individual. Individuals may check whether they are considered “fully vaccinated” at <https://go.gov.sg/vax-status-query>. Unvaccinated children 12 years and under and individuals who are medically ineligible for all COVID-19 vaccines under the National Vaccination Programme can take part in activities at VDS facilities and events.

**Qn: I am not vaccinated. Can I use the gym / enter the sport hall to play badminton or any other sports?**

**Ans:** Yes you can.

For indoor sport facilities and DUS sports hall / outdoor fields, you are required to book a slot via the ActiveSG app or [myactivesg.com](https://myactivesg.com) before visiting the facility. The person who booked the court must be present and random checks will be done onsite. It is also mandatory for the member who booked the slot to be present during the time of play and be part of the group of players on court.

**Qn: What are some ActiveSG's measures to protect the safety and wellbeing of users?**

**Ans:** To safeguard the wellbeing of our guests at all ActiveSG Sport Centres, we will encourage the following:

- Safe distancing is encouraged but will no longer be required between individuals and groups in all masked/unmasked settings.
- Encourage instructors and participant not to talk loudly, sing, or shout while engaging in physical activities to minimise risk of transmission via droplets.
- Continued cleaning and sanitising of our equipment and facilities.
